

Linda Fairbank Candidate for National Council Member 2020-2024

The National Council Member represents the State of Washington at the National Council meetings held throughout the year. I will carry your voice and ideas to make the decisions which guide this organization into the new decade of the 20's.

As your State Commander I had the opportunity to work with the State Commanders from all Departments many of which will move on to the National Council. The values and understanding we have achieved will go far toward crafting a consensus for important accomplishments in the next term of our Great Organization.

I have had the opportunity to observe, listen and communicate with members of the Veterans of Foreign Wars representing every service, community, and our cultural diversity in the Great State of Washington.

I believe my qualifications which include, All-American Post, District and State Commander, All State Post and District Commander, 10 time Post Quartermaster, National Surgeon General as well as numerous State and National Offices reflect a desire to serve all veterans and to support our motto in the Veterans of Foreign Wars: "No One does more for Veterans!"

I am asking for your support and vote at the June Convention for National Council Member of the Great State of Washington.
